

RoHS and REACH Compliance Statement

Newtone Gas Springs ["Company"] certifies that Gas Spring- and Damper assemblies supplied by Company are in compliance with, and conform to the European Union's Restriction of Use of Hazardous Substances in Electrical and Electronic Equipment (RoHS) Directive 2002/95/EC and 2011/65/EU (RoHS2).

Said products have no intentional addition of:

- Lead (Pb)
- Cadmium (Cd)
- Mercury (Hg)
- Hexavalent Chromium (Cr)
- Polybrominated Biphenyls (PBB)
- Polybrominated Diphenyl Ethers (PBDE)

Any trace impurities of these substances are below the threshold limits as specified by the RoHS directive; specifically, Cr+6, Hg, Pb, PBB, PBDE do not exceed 1000 ppm (0.1%) and Cd does not exceed 100 ppm (0.01%).

This declaration is based on our analysis, vendor supplied analysis, material certifications, or laboratory tests of the component materials used in the manufacturing of our products.

REACH: Company complies with the related requirements for the European Union Regulation (EC)1907/2006 (and amendments) concerning the Registration, Evaluation, Authorization and Restriction of Chemicals as under structure of the REACH regulation. Company products do not involve "intentional release of substances" therefore no registration or pre-registration or authorization is required. Company does not use chemicals in quantities of one ton or more per year.

Company believes to the best of its knowledge that the above statements are accurate as of the date of this certification and the statements and certifications of suppliers or service providers that Company may have relied upon in the preparation of this statement. Within the above defined limitations this certificate may be relied upon by the distributors and customers of RoHS designated products of Company. This certification is valid unless superseded by a revised certification at a later date.
